## Eco-Friendly Businesses Rally Around 'The Las Vegas Green Performance Network'

-(Corporate Wire)- LAS VEGAS, NV, Jan. 21 -- Lisa Santacaterina, Certified EcoBroker with Easy Street Realty announced today the commencement of The Las Vegas Green Performance Network (LVGPN) the first Eco-dedicated networking organization in Clark County bringing consumers together with Eco-friendly businesses.

The Las Vegas Green Performance Network is a community of consumers, corporations and organizations who promote Eco-information and progress and share a mutual interest in protecting the environment. At LVGPN, information and an open flow of dialogue is expected to both stimulate new interest in the green lifestyle and act as a foundation for action. LVGPN also holds monthly meetings, bringing Green products directly to consumers. These meetings allow consumers the opportunity to see, touch and feel in a no pressure, no sales environment.

"Our principle is that the alliance with businesses and consumers can be both fun and fulfilling while forwarding the greater goal of sustaining the environment," said LVGPN founder Lisa Santacaterina.

"For many, going GREEN can be a complicated decision people are sometimes hesitant to make because they don't know where to start," she said. LVGPN is the starting point and will be an ongoing network around which eco-friendly consumers can rally, socialize, meet people sharing similar views and perhaps find new and interesting ways to get their sustainable lifestyle started."

Typical of other social groups, the LVGPN is focused on people communicating with each other, sharing ideas, tips and tricks. "Creating a more sustainable, less wasteful environment is what will unite people in The Las Vegas Green Performance Network, Santacaterina said.

Joining LVGPN is free and takes only a few minutes at [www.LVGPN.com](http://www.LVGPN.com). Members will also enjoy free monthly meetings, online Meetups, daily 'GREEN' tips, as well as a great source for no-cost advertising of green businesses.
